

I would like to express my desire to keep XM Instant Traffic and Weather on my XM radio. I pay to have the convenience of immediate traffic reports whenever I need them. I travel over 130 miles a day and on demand traffic is a necessity when choosing routes to take. I cannot wait until the half hour reports that are given over public radio. My subscription to XM is so that I can get variety and better choice of programming than regular broadcast radio and as long as I am paying for it then noone but the subscribers should have a say in what we hear on our XM radios. I ask you to reject the NAB's petition 04-160 and let me continue to have the choices for radio that I am paying for.
